

ABSTRACTA

CONNECTORS

What you don’t see in our assembled display and space frame system is what gives Abstracta its strength and assures its creativity.
Abstracta’s original connectors are best used in semi permanent to permanent displays, and furniture. The use of 90º die-cast metal-alloy connectors inserted into the ends of seam-welded heavy gauge steel tubing makes our system strong and sturdy.
Cubitz Connectors are designed especially for use where the displays/shelving may be put together and taken down often, such as trade shows and arts and crafts fairs.
See more on Connectors on our Website.
