

ARCHITECTURAL SYSTEMS INC

NEW YORK MARRIOTT

New York Marriott at Brooklyn Bridge, Brooklyn, NY

"What we like about ASI materials are the specialty finishes, that are produced in a way we know is applicable to the industry. We know it's not going to break the bank for the owners and we know it's easy to install and it's durable, which is key for making something look residential and rich, and handmade, and at the same time know it really performs in a commercial environment."
