

B+N INDUSTRIES

INFUSED VENEER

With Infused Veneer Panels, nothing is lost. The warm, textural element of wood grain and depth of color of dye are in perfect harmony within these panels, creating a timeworn but durable look for walls, standalone fixtures, and casework. Other B+N systems, like Puck and System 1224, can easily integrate with these panels for exceptional merchandise display.
See more on Infused Veneer on our Website.
