SYSTEM 1224

Choice is ultimately what's on offer with System 1224. Taking design cues from the elegance and simplicity of International Style, this modular shelving system's clean lines, rectilinear forms, and electrified features allow System 1224 to either take center stage or recede into the background of any commercial, workplace, or hospitality project. Interchangeable components make installation and reconfiguration of displays easy and tool-free, giving the user the opportunity to quickly grow and change a project with seasons, moods, and styles of the moment. And it pairs effortlessly with other B+N systems to create a wholly bespoke look.
See more on System 1224 on our Website.
