CUBIC VISUAL SYSTEMS USA

GONDOLAS

We manufacture different lines of "Off-the-Shelf" gondola solutions under the Linx+ product name which share all accessories with our vertical track system "Trax-V". (Link to Trax-V page). We also manufacture many styles of millwork & metal gondolas utilizing our horizontal track system, monopoint system, and vertical track system. All of these have the option of powering for LED lighting, signage, and accessories. Custom builds may not have any system at all and opt for a fully metal or millwork build done by our skilled shop.
?
Always contact us about your needs here, we make so many solutions we don't put them all into a catalog because most projects have specific size and product requirements that we encourage.
