CUBIC VISUAL SYSTEMS USA

TRAX-EH

Trax-EH is our horizontal track system that has the option to be powered for illuminating many accessories. Recessed into the surface panels on your store walls, it's almost invisible to the eye and very easy to install. The triple threat here is that it's extremely cost effective and elegant design.
We can make any custom accessories you like to work with this track. Shelving, bins, hooks, specific product holders - you name it. And then power it with LED lighting.
