

CUBIC VISUAL SYSTEMS USA

TRAX V

Trax V is our tried and true recessed vertical standard. We've developed many accessories to go onto this line which allows you to customize displays and gondolas very easily and cost effectively.
We also have versions that are cleated on top of existing walls alone rather than embedded within the millwork (TraxV+), and double track standards (TraxVQ) that allow for shelving right next to eachother.
Contact for more information on these versions, we keep them in stock as well.
