

D|FAB

CEILING

Custom ceiling clouds from D|Fab establish focal areas in your commercial interior spaces with ease. Engineered for efficient installation, these architectural alternatives are a cost-effective option to construction-drops. Many finish choices are available, such as laminate, paint or direct print graphics. D|Fab's ceiling clouds can incorporate lighting, sprinkler requirements and can be treated to meet fire-ratings. These lightweight elements are often suspended from structural roof trusses. See more information at www.dfabdesign.com
