

ERGONOMIC SOLUTIONS

THE KENSINGTON PUSH-LOCK

Developed in association with Kensington, the Push-Lock not only secures, but contributes to the elegant and minimalist appearance of the solutions it's compatible with.
When used in combination with the SpacePole MultiClip™ and SpacePole Solo™ payment mounts, it provides the security you require without affecting the ability of the mount to be turned 360 degrees.
The Push-Lock also helps ensure PCI physical security best practice compliance.
The Push-lock is also an option for our SpacePole A-Frame™ tablet enclosure, providing maximum security for any unattended applications such as customer information points, price look up or self-service for food delivery and takeaway ordering.
