

GONDOLA TRAIN

GONDOLA SKATE MOVING SYSTEM

The Gondola Train Speed Skate System is the most versatile solution to moving most retail and office fixtures. The skates are lightweight and durable with a low profile design that allows the speed skate to slide easily under heavy furniture and fixtures. The heavy duty ball transfers provide ease of mobility on cement, commercial carpet, and tile flooring. We provide rental or purchase options with the gondola skates to fit all of your project needs.

MOVING SYSTEM BENEFITS

- Heavy duty ball transfers for greater weight distribution
- 12 Ton press fitted ball transfers
- Compact design for ease of portability
- Low profile for minimum required lift
