

INSLEY & NASH

LARGE FORMAT FABRIC PRINTING

Fabric screen printing produces vibrant, long lasting prints and is perfect for man-made fibres like polyester or natural fibres. The flexibility of screen printing allows us to use a wide range of inks & dyes to create beautiful results, for example metallic & fluorescent colours. We're able to produce short run screen printing for one-off or small projects, all the way through to 5000+m using larger production methods like rotary screen printing. Produce your samples and full production with us here in the UK.
