

PRESTOP

QUEUE MANAGEMENT

Fast, simple and contact-free queue system
Our contact-free system is designed to manage the queues outside a store, virtually and without contact. We want to contribute to improve this experience and to keep a safe and healthy distance without losing our place in line. It doesn't matter if your customers arrive on foot or by car. If they have a smartphone or not. Everyone will be able to take their virtual ticket and wait for their turn safely in their space and even in their car, during this pandemic.
