

## PRESTOP

### TOUCH TABLES

Our touch tables are a unique way for the interactive exchange of information in which the experience is literally central. A touch table can be used by several people at the same time and is ideal for displaying floor plans, circulating a slideshow or as a digital kiosk. Let your visitors play a game on the table: a great activity in any place. There are various models of touch tables: from a fixed arrangement to a version in which the height and position of the screen can be adjusted.
