

RTC

HIGHLIGHT POWER SYSTEM

Low voltage lighting and other devices connect via coiled wires to the slim power track.
A simple and effective low voltage power system for retail fixtures.
Simple to use
Makes cord management fast and easy and simplifies planogram resets and shelf repositioning.
Saves money
Allows multiple devices to connect to one power track, eliminating redundant power supplies.
Versatile
4’ long track can be attached directly to peg wall or with brackets to slotted uprights.
Flexible
Connectors, from low voltage devices, can be placed anywhere along the track, providing flexibility and easy installation.
Low voltage power
Runs off a single 12v or 24v class 2 power supply.
