

## SENSAPE

### INTERACTIVE PROMOTION

Interactive Promotion with artificial intelligence and augmented reality.

Let your customers experience your brand immersively with a unique AR world.

Personalized face elements, animations and branded AR worlds in 3D design generate fun and encourage user-generated content in social media, which additionally increases the reach of your campaign. Intelligent persona recognition and the related individual and playful communication of information emotionalize your brand in a special way and are suitable for cross-media lead generation.
