

TJ HALE

FITTING ROOMS

Fitting rooms are one of our most popular items here at TJ Hale. Since trying on your product is a pivotal moment for your shoppers, it's important to offer enough space to do so. We offer modular fitting room fixtures which are especially convenient in the event of a store's layout being redesigned. These fixtures are portable and can be rearranged easily. Our staff will help you find exactly what you need to make your store look perfect.
