

TJ HALE

TRANSACTION/POINT OF SALE COUNTERS

Transaction and Point of Sale counters are an extremely important part of your store and should not be treated as an afterthought. You want your customers to have a pleasant experience when checking out and conclude their visit on a high note. We offer custom designs that can integrate security detachers and safes, as well as special lighting to call attention to detail—for example, your store's name or special product offerings. No matter what you're looking for in a transaction or Point of Sale counter fixture, our forward-thinking team can help you create it.
