CLEAR SCAN® STOREWIDE LABEL HOLDER SYSTEM

FLIP SCAN® PLAIN PAPER LABEL HOLDERS
Clear Scan® Shelf Edge Labeling System Label Strips and Holders flex open at a touch for fast, drop-in labeling, then automatically spring shut to hold the label securely in place. This innovative approach allows use of inexpensive, easy-to-change, plain paper labels instead of hard-to-change, costly, messy adhesive stick-ons. With Clear Scan you can save time, effort and money, scan more accurately, renew the appeal of tired shelves, beautify, and even attract attention and promote sales.

Clear Scan® Label Strips and Label Holders are forgiving PVC co-extrusions with a clear, see-through front and contrasting colored back. Readability and scanning accuracy are enhanced by use of an extremely high-quality transparent window material with built-in UV protection. This improved clear PVC front resists yellowing and darkening better than ordinary plastics, guaranteeing longer life and dramatically reducing replacement costs. The flexible, forgiving nature of the material provides built-in “memory”, allowing it to retain shape and secure labels for the life of the strip while simultaneously increasing customer safety.

Manufactured in a variety of profiles (shapes), they mount to all standard channel configurations, plus metal, glass, wood, wire baskets, wire shelving, wire fencing and scanning hooks.</>
