GRID 50

Grid 50 is a surface system suited for use on walls and and in mid-floor zones. The basic system consists of a metal grid, which can be coated in a choice of colours. Due to its industrial look, Grid 50 perfectly conveys young, sporty and technical brand values. Decorative elements and merchandise supports, such as shelves, front arms, hanging frames or brackets, are hooked into the system as required – anywhere across its entire surface. Grid 50 panels can be easily integrated into any setting, whether in fashion retail, health & beauty stores, pop-ups shops, window displays or office environments. Each panel has a load-bearing capacity of up to 200 kg.
