

VISPLAY

STRIPES

Stripes allows personalised use of walls and mid-floor installations. The horizontal system consists of profiles that are suited to both straight and curved walls. Stripes can also be used as a double-sided system. Merchandise supports and fittings are simply hooked into the groove underneath – they can then be moved along the horizontal profile as required. The system is ideal for the presentation of diverse merchandise and suited to a wide variety of sectors. Stripes profiles have a load-bearing capacity of up to 30 kg per 625 mm. The system is easily mounted on wooden and glass panels.
